INTRODUCTION

With Thomson Scientific, it's all about choices.

What information do you need? What technology platform works best with your organization? What content delivery method would you prefer? Would you like to easily—and legally—share content across your organization? Do you want to conduct your own research, or have us do it for you?

Get the information you need from *Dialog*[®] and *DataStar*[®], choosing from an array of robust off-the-shelf information solutions designed for specific industries, as well as customized enterprise solutions. Our global resources, experience and industry knowledge ensure you get complete, accurate information every time you search.

Premium content from authoritative sources

Dialog and *DataStar* products offer unparalleled depth and breadth of content coupled with the ability to search with precision and speed. Our collection of over 900 databases encompasses content areas including:

- aerospace
- biomedical research
- biotechnology
- business and finance
- chemicals
- energy and environment
- food and agriculture
- government regulations
- intellectual property
- medicine
- news and media
- pharmaceuticals
- social sciences
- science and technology

Choose the platform that best suits your needs

Thomson Scientific provides a comprehensive suite of online search tools to fit the needs of any researcher or information user, regardless of search focus, skill level or preferred interface. Combining flexible pricing options and up-to-date web services tools, you can also create your own content set and interface derived from the entire *Dialog* and *DataStar* collections.

We offer flexible information research and delivery solutions with customizable options for the web, telnet, ftp, RSS, via your organization's intranet or direct to the desktop.

Dialog

Dialog is the premier online retrieval service with the most comprehensive content collection and most powerful search language available. From concept testing, to clinical trials, to product launches, to patent protection, *Dialog* delivers accurate, relevant, trustworthy results with amazing speed. Choose web, text or customized interfaces, or integrate just the content you need into your own applications. Thomson Scientific has developed a comprehensive suite of online search tools for *Dialog* to fit the needs of any researcher or information user, regardless of research focus, skill level or preferred interface. Combining flexible pricing options and up-

to-date Web Services tools, you can also create your own content set and interface derived from the entire *Dialog* and *DataStar* collections.

DataStar

DataStar offers a comprehensive content collection with a special focus on pharmaceutical, biomedical, biosciences, chemical, computing, engineering and healthcare-related industries. It also includes broad coverage of companies, as well as industry and business news in Europe and the rest of the world. Choose web, text or a customized interface, or integrate just the content you need into your own applications.

Integrate content with Web Tools for Dialog and DataStar

Content can be integrated into portals and other tools using the Dialog Application Programming Interface (*Dialog API*), an XML-based web service that enables *Dialog's* extensive content collection and renowned search engine to be integrated transparently into websites, enterprise portals, corporate intranets and extranets, software applications and other interactive services. *Dialog API* supports Web Services Description Language (WSDL) and Simple Object Access Protocol (SOAP) for integrating *Dialog* content into compatible platforms.

Applications created using the *Dialog API* can utilize the entire *Dialog* content set, enabling the creation of comprehensive information solutions. And, since the *Dialog API* interfaces with the powerful *Dialog* search engine, applications can be created for novice users and expert searchers alike.

Immediate notification via Alerts

When you want critical information pushed to you as soon as it is available, you need customized Alerts. Simply select your topic of interest, frequency of notification and the format in which you want to receive content for easy integration and distribution. There is no limit to the number of Alerts you create. And, if you need our help, expert searchers will set up Alerts for you — at no additional charge. With Alerts, there is no faster way to access the information that is important to you.

You can receive Alerts via text, HTML, XML or an RSS delivery format. The RSS reader offers tools for managing and organizing feeds into folders for easier review. Or, take advantage of *Enterprise Alert Manager*, our integrated RSS management and collaboration solution designed to simplify information distribution across the organization.

With *Enterprise Alert Manager*, information managers can access, manage and deliver information from any RSS-based source, including *Dialog*, the Internet and internal, proprietary content. *Enterprise Alert Manager* also provides the ability to enhance content with editorial reviews, tag records with separate categories, customize information feeds for specific constituencies and provide users access to RSS content feeds via email, web browsers, portals, intranets, desktop applications and mobile devices.

Tailor information to meet your needs with Custom Solutions

Get the information you need – your way. With *Dialog* Custom Solutions, you can create your own view for searching *Dialog* and *DataStar* online services from a single, integrated interface. Using custom integration tools, you can port data from the services into other applications.

To set up a Custom Solution, our specialists work with you to identify:

- appropriate content from *Dialog* and *DataStar*
- user requirements and search strategies

- delivery routes and access methods
- items that need updating regularly through automatic Alerts

Once the customized system is set up, you have personalized access to the information you need to make informed decisions.

Share information legally across your organization

Sharing information you get from *Dialog* and *DataStar* enables faster, more informed decision making. It also raises the issue of copyright infringement, however – a major concern for organizations relying on information from outside sources. Stay in compliance with *Dialog* ERASM (Electronic Redistribution and Archiving), a service that allows you to:

- Distribute multiple copies of *Dialog* and *DataStar* search results throughout your organization
- Legally store search results on your intranet, LAN or on an internal database
- Receive additional paper copies of *Dialog* and *DataStar* output for redistribution in your organization

With *Dialog* ERA, gathering and disseminating information has never been easier.

Let Thomson Scientific handle your research needs

If you are short on time, staff or expertise in a subject area, the Search Services professionals from Thomson Scientific can help. We understand the art of patent, literature, competitive intelligence and market data searching and possess the breadth and depth of knowledge necessary to fulfill your requests, on time and within budget. We can provide research assistance in many areas, including:

- Clearance / Right-to-Use / Freedom-to-Operate Searching
- Collection / State-of-the-Art Searching
- Competitive / Technical Intelligence Searching
- Infringement Searching
- Novelty / Patentability / Prior Art Searching
- Patent Watches and Alerts
- Validity / Invalidity Searching

Our team of advanced-degree specialists has extensive knowledge of business methods, chemicals, intellectual property, mechanics, pharmaceuticals, science and more.

Knowledgeable, global customer support

In addition to sophisticated precision tools and accurate, authoritative content, Thomson Scientific solutions are supported by best-in-class customer service and training. Highly skilled and knowledgeable consultants from a wide variety of educational and professional backgrounds staff our worldwide Knowledge Center, 24 hours a day, every business day.

As an extension of your organization, the Knowledge Center offers peer support through specialists with backgrounds as librarians, IT specialists, scientists, attorneys and business professionals. Combine our Knowledge Center search and product expertise with your own knowledge and understanding of your research needs for the optimal search outcomes.

For more information, go to thomsondialog.com, email dialogcustomer@thomson.com or call + 1 800 334 2564 (inside North America) or 00 800 33 34 2564 (outside North America).

How to Use this Catalog

The *Dialog Database Catalog* is designed to acquaint you with the current content available via the *Dialog* and *DataStar* online services. Each section of the catalog offers a distinct presentation of the database collection.

Use the *Databases by Name* section starting on page 11 to

- verify the availability of specific databases
- locate the page number where a concise description is found

Use the *Databases by Subject* section to

- determine what databases are available in eighteen broad topical areas, such as Business & Industry, Pharmaceuticals, etc.
- get a snapshot view of the database collection by subject

Use the *Database Indexes* section to

- look up the name of a database when you have the *Dialog* database number
- look up the name of a database when you have the *DataStar* database label

Use the *Database Descriptions* section to find out more about the contents of a database. Any special features are noted, such as chemical structure searching, *Dialog eLinks* support, and images.

An example of a description is shown on the opposite page. Each numbered element is explained in the key.

Sample Database Description

1 Prous Science Drugs of the Future			
2 Contains comprehensive drug monographs providing product information on new compounds, including the synthesis and corresponding schemes, chemical structure, pharmacological action, pharmacokinetics and metabolism, toxicity, clinical studies, manufacturer and references. Information on compounds is continuously updated as advances in development status are disclosed worldwide.			
3	<i>Provider:</i>	Prous Science	
4	<i>Subject:</i>	Chemistry, Pharmaceuticals	
5	<i>Type:</i>	Full Text	
6	<i>Language:</i>	English	
	<i>Dialog:</i>	7 453	8 Monthly 9 1990+
	<i>DataStar:</i>		PRFU Monthly 1990+

Key to Database Description

- 1 Database name
- 2 A concise description of the database contents is shown. Detailed documentation for each database is available online at *library.dialog.com*.
- 3 The provider is the organization that licenses the database to Thomson Scientific. It may be the original publisher or producer, or a third-party aggregator or distributor.
- 4 Each database is assigned to one or more of eighteen broad subject categories. Refer to the *Databases by Subject* section to review all databases in a subject category.
- 5 Type of data the database contains is described as: Full Text, Bibliographic, Directory, Numeric, or a combination of these.
- 6 The language(s) of the database contents is noted. Up to five languages are named. A database with information in more than five languages shows a plus symbol (+) following the predominant language.
- 7 The availability of a database on *Dialog* or *DataStar* is indicated by *Dialog* followed by the database identification number, or *DataStar* followed by the database identification label.
- 8 Frequency of updates to the database is indicated. Some examples are Daily, Monthly, Weekly, 2x weekly (i.e., twice weekly), Continuous (i.e., more than three times per day), Irregular, Archive (updates are available in a different database), Closed (no longer updating), etc.
- 9 Period of time covered by the database is given with a beginning year and end year (if closed). The plus symbol (+) following a year denotes the database continues to update to the present. Coverage for some databases is listed as Current, indicating that updates replace older material. Such databases are most often company or other directory databases.

Database Descriptions

ABI/INFORM®

Includes details on virtually every aspect of business, including company histories, competitive intelligence and new product development. Provides in-depth coverage of over 2,800 publications, with more than 50 % available in fulltext. Contains citations, abstracts and text from professional publications, academic journals and trade magazines published worldwide. *ELinks* enabled on *DataStar*.

Provider: ProQuest, LLC
Subject: Business & Industry, Market Research
Type: Bibliographic/Full Text
Language: English
Dialog: 15 Daily 1971+
DataStar: INFO Daily 1971+

Accounting & Tax Database

Provides comprehensive indexing and informative abstracts of articles in prominent accounting, taxation and financial management publications from the United States and other countries. Selected records feature the fulltext of the source article. A derivative print equivalent of the database is Accounting & Tax Index.

Provider: ProQuest, LLC
Subject: Business & Industry, Law & Government
Type: Bibliographic/Full Text
Language: English
Dialog: 485 Weekly 8/1971+

Adis Clinical Trials Insight

Presents highly structured records of key papers published in more than 2,000 international medical and biomedical journals, papers presented at the top 100 clinical meetings and trials data from media releases and relevant company and trial registry Web sites on drugs, drug therapy, adverse drug reactions and pharmacoeconomics.

Provider: Wolters Kluwer Health

Dialog: 178 Monthly Current

AeroBase®

Provides references and abstracts of key scientific and technical documents, books, reports and conferences, covering aerospace research and development. Covers basic and applied research in aeronautics, astronautics and space sciences, as well as technology development and applications in fields such as chemistry, geosciences, physics, communications and electronics.

Provider: Thomson Scientific
Subject: Engineering & High Technology
Type: Bibliographic
Language: English
Dialog: 104 Monthly 1999+

AESIS (Australia's Geoscience, Minerals and Petroleum Database)

Indexes to all available Australian information both published and unpublished in the subject areas. More than 650 journals are indexed. Also covered are conference papers, books, maps, field guides, university theses as well as unpublished company exploration reports from all the Mines Departments around Australia.

Provider: Australian Mineral Foundation Inc.
Subject: Energy & Environment, Engineering & High Technology
Type: Bibliographic
Language: English
Dialog: 105 Closed 1965–2001

Africa News

International news agency covering political, economic and social developments in Africa. Africa News has contributors including the Panafrican News Agency, headquartered in Dakar, and the Nairobi-based All Africa Press Service. Participating publications include some of Africa's best-known independent periodicals, among them the Post of Zambia and Nigeria's Newswatch and Theweek.

Provider: Comtext Scientific Corporation
Subject: Worldwide News

AGRICOLA

Extensive bibliographic database consisting of records for worldwide literature citations of journal articles, monographs, theses, patents, translations, microforms, audiovisuals, software and technical reports. Available since 1970, AGRICOLA serves as a document locator and bibliographic access and control system for the National Agricultural Library (NAL) collection. *ELinks* enabled.

Provider: National Agricultural Library of the U.S. Department of Agriculture (USDA)

Subject: Agriculture & Nutrition
Type: Bibliographic
Language: English+
Dialog: 10 Monthly 1970+

AGRIS International

AGRIS International is the international information system for agricultural sciences and technology. The database serves as a comprehensive inventory of worldwide agricultural literature, which reflects research results, food production and rural development to help users identify problems involved in all aspects of world food supply. *ELinks* enabled.

Provider: Food and Agriculture Organization (FAO) of the United Nations; National Agriculture Library (NAL) of the USDA
Subject: Agriculture & Nutrition
Type: Bibliographic
Language: English+
Dialog: 203 Monthly 1974+

AGROProjects

AGROProjects monitors the R&D of new agrochemical products, including active ingredients and combinations, from the patent disclosure stage to full commercialization or discontinuation. Profiles summarize new product information on and include chemical structures, chemical synthesis routes, physicochemical properties and formulations.

Provider: Informa UK Ltd.
Subject: Agriculture & Nutrition, Business & Industry, Product Information
Type: Full Text/Directory
Language: English
Dialog: 235 Quarterly 1990+

Allied and Complementary Medicine

Covers the fields of complementary or alternative medicine and allied health. Descriptors used in indexing the records are based on MeSH® (Medical Subject Headings). The information in this database will be of interest to anyone who needs to know more about alternatives to conventional medicine. *ELinks* enabled on *DataStar*.

 AVOC Thesaurus Current

Aluminium Industry Abstracts

Aluminium Industry Abstracts (AIA), formerly World Aluminum Abstracts (WAA), provides coverage of the world's technical literature on aluminum, production processes, products, applications and business developments. All aspects of the aluminum industry, aside from mining, are covered. *ELinks* enabled.

Provider: ProQuest, LLC
Subject: Chemistry, Engineering & High Technology
Type: Bibliographic
Language: English+
Dialog: 33* Monthly 1972+
 *Subscriber access only

America: History and Life

Comprehensive file with abstracting and indexing of the full range of U.S. and Canadian history, area studies and current affairs literature. Citations from international journals include reviewed books and dissertations. Comprises history, inter-disciplinary studies of historical interest, and history-related topics in the social sciences and humanities.

Provider: ABC-CLIO
Subject: Social Sciences & Humanities
Type: Bibliographic
Language: English+
Dialog: 38 Closed 1954–2005

American Banker Financial Publications American Banker Fulltext

Corresponds to the fulltext of the authoritative daily financial services newspaper, American Banker, as well as the fulltext of other financial newsletters published by American Banker in the areas of U.S. capital markets, bank regulation, insurance letters and public finance letters. These publications follow trends, developments and news in banking and financial areas.

Provider: American Banker-Bond Buyer
Subject: Business & Industry
Type: Full Text
Language: English
Dialog: 625 Daily 11/1981
DataStar: BANK Daily 1981+
 BAND Daily Today

American Business Directory

Contains company address, current address, telephone number, employment data, key contact and title, primary Standard Industrial Classification (SIC) code, yellow pages and brand/trade name information, actual and estimated financial data and corporate linkages on over 12 million U.S. business establishments.

Provider: InfoUSA
Subject: Company Directories & Financials
Type: Directory
Language: English
Dialog: 531 Monthly Current

American Library Directory

Compiled annually with information on public, academic, special, and government libraries and more than 75,000 library personnel. Listings may include the following types of information: name and address; branch locations; holdings; budgets; programs; special collections; automation systems; and telephone and fax numbers.

Provider: R.R. Bowker
Subject: Reference
Type: Directory
Language: English
Dialog: 460 2003 Closed

Analytical Abstracts

Devoted to all aspects of analytical chemistry: general applications; inorganic and organic chemistry; pharmaceutical chemistry; environmental science; agriculture; instrumentation and more. Information includes chemical names, CAS® Registry Numbers, details of the analytes and matrices, technique used. *eLinks* enabled.

Provider: The Royal Society of Chemistry
Subject: Chemistry
Type: Bibliographic
Language: English+
Dialog: 305 Weekly 1980+
DataStar: ANAB Weekly 1978+

ANSA – Italian General News Service

Supplies up-to-the-minute coverage of domestic and international events in politics, economic affairs, companies and more in Italy and around the world. About 60% of the database is devoted to Italy, 20% to the rest of Europe and 20% to the rest of the world.

Provider: Agenzia Ansa
Subject: Worldwide News
Type: Full Text
Language: Italian
DataStar: ANSA Daily 1981–2 days ago
 ANSD Daily Today (unedited)
 ANSC Daily 1 week (unedited)

ANTE: Abstracts in New Technologies and Engineering

Provides abstracting and indexing of 350 academic and trade publications from the U.K. and the U.S., with *eLinks*. Coverage includes new technologies, such as information technology and computing, electronics, biotechnology and medical technology. Engineering is also covered, including construction, electrical and chemical engineering and allied subject areas.

Provider: ProQuest, LLC
Subject: Chemistry, Engineering & High Technology
Type: Bibliographic
Language: English
Dialog: 60* Monthly 1982+
 *Subscriber access only

AP News

Provides the fulltext of Associated Press coverage of national, international and business news, as well as sports and financial information. Available 24 hours after transmission on the high-speed DataStream service. The largest supplier of general-interest news to the media worldwide, the AP serves more than 8,000 newspaper and broadcast outlets in 121 countries.

Provider: Associated Press
Subject: Business & Industry, Worldwide News
Type: Full Text
Language: English
Dialog: 258 Continuous 2000+
 858 Archive 7/1984–12/1999

Aqualine

Contains abstracts and bibliographic citations from approximately 300 journals, conference proceedings, scientific reports, books and theses, with *eLinks*. Major subjects include water resources and supplies management, water legislation, water quality, potable water distribution, wastewater collection, water treatment technologies, wastewater and sewage treatment and effects of water pollution.

Provider: ProQuest, LLC
Subject: Energy & Environment, Engineering & High Technology
Type: Bibliographic
Language: English+
Dialog: 78* Monthly 1960+
 *Subscriber access only

Architecture Database

Online version of the print publication Architectural Publications Index (API) compiled by the British Architectural Library at the Royal Institute of British Architects. The literature indexed includes articles, books, interviews, obituaries and biographies in more than 300 current periodicals in 20 languages, as well as items cataloged since the 1980s.

Provider: British Architectural Library, Royal Institute of British Architects
Subject: Social Sciences & Humanities
Type: Bibliographic
Language: English+
Dialog: 179 Monthly 1974+

Art Abstracts

Contains articles from more than 400 periodicals published throughout the world. Coverage includes periodicals, yearbooks and museum bulletins published in English and other languages and indexes reproductions of works of art that appear in cited periodicals. Offers well-written, detailed abstracts that describe the content and scope of the source articles.

Provider: The H.W. Wilson Company
Subject: Social Sciences & Humanities
Type: Bibliographic
Language: English+
Dialog: 435 Monthly 1984+

Arts & Humanities Search

International, multidisciplinary database that covers the world's leading arts and humanities journals, plus relevant social and natural science journals and additional records from the Current Contents series. A key advantage to this database is the ability to run cited-reference searches.

Provider: Thomson Scientific
Subject: Social Sciences & Humanities, Reference
Type: Bibliographic
Language: English+
Dialog: 439 Weekly 1980+
DataStar: AHCI Weekly 1980+

Ärzte Zeitung: German Medical News

Contains highly current information on medical trends, management of health services and the pharmaceutical industry. Main topics include new developments in medical diagnosis, therapy and treatment, advances in medical science, national and international health policies, company news, market data and trends in the pharmaceutical industry.

Provider: Ärzte Zeitung Verlagsgesellschaft mBH
Subject: Medicine & Biosciences
Type: Full Text
Language: German
DataStar: AEZT Weekly 1984+

ASFA (Aquatic Sciences and Fisheries Abstracts)

Monitors more than 5,000 serial publications, books, reports, conference proceedings, translations and limited distribution literature. *ELinks* enabled, it is the premier reference of aquatic science librarians.

Provider: ProQuest, LLC
Subject: Agriculture & Nutrition, Energy & Environment, Medicine & Biosciences
Type: Bibliographic
Language: English
Dialog: 44* Monthly 1971+
 *Subscriber access only

Asia Intelligence Wire

Contains an extensive collection of newswire stories, newspaper articles and journal articles from a wide variety of international sources. Geographic coverage includes Cambodia, China, India, Hong Kong, Indochina, Indonesia, Japan, Korea, Malaysia, Myanmar, Philippines, Singapore, Taiwan, Thailand and Vietnam.

Provider: Financial Times Information Ltd.
Subject: Worldwide News, General Interest
Type: Bibliographic/Full Text
Language: English+
Dialog: 619 Daily 1995+

Asian Company Profiles

Covers public and private companies from major trading countries in Asia. Includes manufacturers, importers, exporters and major service companies supporting international business. Asian subsidiaries and local offices of international companies are provided.

Provider: FBR Data Base, Inc.
Subject: Company Directories & Financials
Type: Directory
Language: English
Dialog: 505 Monthly Current

Asia-Pacific

Covers the business, economics and new industries of the Pacific Rim nations, including Eastern Asia, Southeast Asia, the Indian subcontinent, the Middle East, Australia and the Pacific Island nations.

Detailed abstracts are provided for selected journal articles, monographs, conferences and government documents. Shorter citations with briefer indexing are provided for a wide variety of journal articles, newspapers and more.

CLAIMS®/U.S. Patents

Provides access to over 5.6 million United States patents issued by the U.S. Patent and Trademark Office (USPTO) since 1950, the largest collection of U.S. patent references available online. The CLAIMS database is offered in three versions: CLAIMS/U.S. Patents (File 340) contains the patent records described above. CLAIMS/UNITERM (File 341) and CLAIMS/COMPREHENSIVE (File 942) contain the same patent records, but also include in-depth controlled indexing for chemical and chemically significant patents. CLAIMS/Compound Registry (File 242) is designed for locating compounds in these databases using IFI compound term number, main compound name, synonyms, molecular formula and more.

Derwent Veterinary Drug File

Covers the worldwide literature on veterinary drug and vaccine development, and includes citations and abstracts on the evaluation and use of veterinary drugs and vaccines in animals, in particular on prevention and treatment of animal diseases, growth promotion and breeding manipulation, adverse effects, toxicology, and analysis of drugs and their interactions.

Provider: Thomson Scientific
Subject: Agriculture & Nutrition, Pharmaceuticals
Type: Directory
Language: English
DataStar: DVDU Closed 1983–2001

Derwent World Patents Index® Derwent World Patents Index First ViewSM

DWPI® provides access to information from more than 30 million patent documents, giving details of nearly 16 million inventions. Updates typically add approximately 20,000 documents from 41 patent-issuing authorities. Each record describes a single patent family containing data from the first publication of an invention, as well as any other published patents relating to that invention. Images of drawings from the patent are included in the database, where available. New in 2007: weekly comprehensive coverage of all Chinese Utility Model Registrations in English. *DWPI Extension (DWPIX)* offers additional value-added data to subscribers, including special indexing for searching chemical fragments and polymers.

DWPI First View is designed to be searched in conjunction with *DWPI* to give a complete view of all published patent documents before their inclusion in *DWPI*. *First View* is a rolling file: new patent records remain in *First View* until all of the value-added data has been created by database editors. The completed record is then added to *DWPI* and the corresponding *First View* record is removed.

PIERS Exports / Imports

PIERS (Port Import Export Reporting Service) Imports (U.S. Ports) and PIERS Exports (U.S. Ports) are compilations of manifests of vessels loading and discharging international cargo at more than 130 seaports of the United States and Puerto Rico, and approximately 11 key seaports in PIERS Imports (Latin America) or PIERS Exports (Latin America). Details on each individual shipment are stored in the databases. Principal applications include: identification of trade opportunities, monitoring imports and/or exports of products whose details are lost in traditional government reports and identification of potential trade partners. All waterborne international trade movements are captured: containerized, break bulk, dry bulk and tanker. There is approximately a two-month lag between vessel arrivals and the loading of the data into the files. The PIERS databases are produced by Commonwealth Business Media, publisher of *The Journal of Commerce*.

TRADEMARKSCAN®

The TRADEMARKSCAN databases principally serve as preliminary trademark screening tools for checking on the availability of new product and service names. Most of these databases feature full records that contain the trademark, serial number, international class(es), status, goods/services description, current owner, dates, images and other pertinent information. TRADEMARKSCAN databases are listed below by granting country or authority name. Entries include *Dialog* database number and dates of coverage for active marks. Inactive (published and unpublished) mark coverage is given for some files. All databases update weekly, unless otherwise noted.
